Plan Revised: 9/28/21
INTRODUCTION

In accordance with Education Code 32280-3288, California Education Board Policy, and Administrative Regulations 0450(a)(b) Comprehensive School Emergency Response Plans will be updated by March 1st of each year.

Health and Safety Statement
Health and safety at ABC Adult School is undertaken in accordance with relevant institutional, industrial, governmental agency regulations and policies and procedures contained in the Campus Safety Policy. This plan is intended to promote a safe, secure, healthful learning and work environment. The plan outlines the protocol for the management of the health and safety of employees, students, and guests in cases of sickness, accidents, fire safety, emergency and evacuation, security and safety on campus.

Employee Health Resources
ABCAS employees have access to the following health resources:
- Health updates sent to employees on a continual basis from the Human Resources Office.

Emergency Notification
ABCAS uses (ASAP) a third-party registration system which is regularly updated with student and faculty contact information. The system is used to notify students of campus-wide emergencies or closures via email. Administration regularly tests the system to verify that it meets our needs. Students are responsible to ensure that their contact information is up-to-date and accurate.

Campus Access
The hours of operation and event calendar of ABCAS are available to employees and the public on the school’s web site. Students and employees will be notified of emergency campus closures and reopening through school’s web site.

Annual Security Report
An Annual Security Report is available to the public on the School web page under Student Services. The plan is developed by site administration based on information provided by the Cerritos Sheriff’s Department. The Annual Security Report will be published by October each year.

Smoking
ABC Adult School is a smoke free campus.

Procedures for Investigating Incidents
All incidents on campus are followed-up with an Incident Report, which is available electronically for our staff. The Administration evaluates the incident and response to determine if further action or improvement in safety practices is needed. Incident Reports are filled out by instructors, supervisors or students.
Instructor Responsibility
Instructors oversee safety training for students and enforcement of safety in the classroom, and lab areas. Students must comply with safety training and practice as required per their program.

Student and Guest Responsibility
As defined in the Occupational Safety and Health Act of 1970, all persons are required to understand the safety and health requirements of their specific area of training and employment. Safety instruction is an integral part of our Career Technical programs and it is the student’s responsibility to adhere to institutional policy and procedures relating to student conduct and campus health and safety. Students are responsible for personal safety and the safety of others in their area of training and for immediately reporting and/or resolving any health, safety or security concerns to their instructor. Violation of these standards may result in the imposition of sanctions or discipline.

Employee Responsibility
All persons are required to understand the safety and health requirements of their specific area of training and employment. Safety instruction is an vital part of our Career Technical programs and it is the student’s responsibility to abide by the institutional policy and procedures relating to student conduct and campus health and safety. Employees are responsible for personal safety and the safety of others in their area of training and for immediately reporting and/or resolving any health, safety or security concern to their instructor. Violation of these standards may result in the imposition of sanctions or discipline.

Safety Resources
Safety Resource Centers identify the location of program specific safety resources such as sharps disposal, Safety Data Sheets (SDS) and eye wash stations. First aid kits are in each classroom. First aid kits and AED’s are also located in our main office building on campus.

8. Establish emergency areas as needed – sanitation, shelter, morgue,  
9. Help distribute resources such as water, food, power, etc.  
10. Communicate with EOC
4. EMERGENCY DISASTER PROCEDURES

Earthquake (if a drill, you will hear a long continuous ringing sound).
A. Indoors – When the earth begins to shake, DROP AND HOLD:
   Drop to knees with back to windows. Get under a desk or other sturdy
   object and grasp the object with both hands holding tight. Keep eyes shut.
   Listen for instructions.
B. Outdoors – Move to an open area away from buildings, trees, and overhead wires.
   DROP AND HOLD: Drop to knees and hold on to some object, if possible.
   Stay in the clear. Listen for instructions from P.A. or bullhorn.
C. After the Shaking Stops – Walk to the emergency assembly area. (EAA). Remain quiet.
D. If the building(s) have suffered observed physical damage, do not return students to class
   until authorized to do so by the appropriate district, city or county authority. Put the
   Emergency Organization Plan into action.

Bomb Threat
A. Ask the question of the informant… WHERE AND AT WHAT TIME?
   Obtain as much information as possible.
B. Clear buildings when specific information is received.
   1. Notify the administrator in charge.
   2. Administrator notifies the sheriff’s office (562) 860-0044 (complaint desk).
   3. Notify the level director of action taken. (Level director notifies superintendent and
      switchboard).
   4. Principal or administrator in charge makes discussions for action in conference with the
      uniformed officer.
   5. Notify custodial help to stand by in the event of a search.
   6. Evacuate buildings, if indicated. Follow established evacuation procedures. Use dispersal
      procedure, if necessary.
      Follow site level emergency organization plan, if necessary

Explosion/gunfire
A. Indoors – DUCK AND COVER.
B. Outdoors – Seek protection (curb, bench, ditch or gutter) DUCK AND COVER facing away
   from disaster.
C. Evacuate students to emergency assembly area(s) or building(s), if appropriate.
   Administration will give directions if this is necessary.
D. Notify the fire department or sheriff’s department (Call 911).
E. Notify level director. (Level director notifies superintendent, and switchboard).
F. If fire results, follow procedures for “FIRE.”
G. Put the site level Emergency Organization Plan into action.
Fire
A. Locate fire.
B. Notify Fire Department (Call 911).
C. Sound fire alarm (If fire alarm is not working, sound alarm through continuous “beep” in bullhorn siren and/or through prearranged verbal or visual signal).
D. Evacuate buildings according to site emergency plans.
E. Search and rescue will check all rooms to be certain they are evacuated.
F. If possible, protect school’s vital records; remove from buildings, if necessary.
G. Consult with fire department personnel before directing students and staff to return to buildings.
H. Give an “all clear” signal (one long bell) if there is no fire or when all is clear.
I. Reset alarm system within reasonable length of time.

Anticipated Disturbances, Disorders or Demonstrations
A. Notify the level director of any anticipated disturbances. (Level director notifies superintendent if indicated).
B. Contact appropriate resources from whom assistance may be desired: Local fire department, sheriff’s department, Child Welfare and Attendance (ext. 21104), Employee Relations (ext. 21171), Maintenance & Operations (ext. 22403) and Transportation (ext. 22400).

Campus Intruder(s)
A. Notify an administrator.
B. Principal will call (911).
C. An announcement is made over the P.A. “Lockdown now in effect”
D. Direct all students to get in the classroom and lock all doors.
   Take roll and inform the office of anyone missing when your room is contacted.
   The Assistant Principal will contact each room via classroom phones.
   When the situation is resolved, notification is made over the P.A.

Disturbance—General Public
A. Notify administrator. (administrator notifies superintendent.)
B. If conduct of an adult who is not an employee of the district but whose conduct on a school premise or adjacent territory interferes with the orderly processes of the school, warn the adult, in the presence of a witness, that he/she is subject to arrest.
C. If, after a reasonable time (2-3 minutes), the adult has not complied with the request to desist, proceed to cause a citizen’s arrest or call the sheriff’s department (562) 866-0044.
   Staff should recognize that the law enforcement agency will be in charge when it responds to the call for assistance.

Severe Weather
WEATHER RELATED EMERGENCY. When a prolonged rain, severe heat, flooding or other weather-related emergency creates conditions, which appear to be serious enough to close the school, follow dispersal procedures as outlined in the Dispersal section of this plan.
5. BUILDING EVACUATION, EVACUATION TO SAFE HAVEN, AND ASSEMBLY PROCEDURE

In accordance with the Education Code and Title V, Administrative Code, regular fire and disaster drills will be conducted to acquaint faculty and students with appropriate procedures for evacuation of buildings. The following guidelines will be in effect for these drills:

Administration: sounds fire alarm; makes announcement to students and staff. In case of fire, close doors and windows. In case of hazardous materials, close ventilation system. Activate Incident Command System as appropriate. Monitor and provide updates and instructions as available. Maintain communication. Announce any new procedure. Announce, “All Clear,” when the emergency has ended.

Staff: ahead of time, practice as a class, following both fire and earthquake procedures. Identify any students or staff who may need special assistance during evacuation. Learn from these individuals how best to help them. Teach students how to provide assistance ahead of time. In schools with large numbers of disabled students needing assistance, volunteers should be recruited from the immediate vicinity and trained. Be prepared to help visitors as well. At time of alarm or after earthquake shaking stops:

Remind students to follow instructions for building evacuation:

1. “Don’t Talk. Don’t Push. Don’t Run. Don’t Turn Back.” Students should exit the school in an organized manner. Check that students or staff needing special assistance have it. Remind students NOT to use cell phones, to keep lines free for emergency communications!
2. Take your:
   - Classroom Go-Bag or Go-Bucket;
   - Emergency clipboard or notebook with class lists and Class Status Report Forms;
   - Duffle bag packed supplies.
3. Evacuate. Unless instructed otherwise, evacuate using normal building evacuation routes posted. If you encounter obstructions, such as a jammed door, be prepared to take an alternate route. Move directly away from the building when exiting.
4. Keep classes separate and take roll. Check again for injuries. If any students are injured, mount your classroom identification sign in front of the group above head level. Fill out your Classroom Status Report Form and return it to the Incident Command Center with the student runner.
5. Remind students about student-release procedures and their purpose to keep them safe. Remind them not to use their cell phones in order to keep lines open for emergencies. For emergency communication, use SMS only.
6. If you are a member of a team, have the teacher next to you supervise your class and proceed to the Incident Command Center.
7. **Teachers are to remain with their class AT ALL TIMES.** Students must remain together as a class. Periodically call roll as needed. Keep students quiet so that they can hear information from the public address or megaphone/bullhorn system that will be used for announcements. The Incident Command Center will provide updates and relieve staff of their assignments.

**Note:** all personnel without a specific duty or class are to immediately report to the Incident Command Center for instructions. All paraeducators who do not have a class are to report immediately to the assembly area to assist where needed.

**Evacuation to Safe Haven:** all schools should designate an alternate site for assembly should school grounds need to be evacuated. Identify evacuation routes ahead of time, and inform parents of this alternate site. Schools that face known risks such as flooding, landslide, debris flow, tsunami, chemical release, or schools that do not have a safe assembly area on-site, should arrange and prepare safe havens ahead of time with emergency supplies. If necessary, also arrange transportation to your safe haven depending on the threats you face, evacuation to safe haven may be automatic (e.g., following earthquake in coastal areas with tsunami threat), or you may wait for evaluation by on-site incident commander and assessment team.

**Reverse Evacuation:** there may also be times when it becomes necessary to go back inside, because inside is safer than outside. Practice reverse evacuation at the end of your drills, when you go back to your classrooms, following all of the same rules.

**Note:** Always assume and act as though an alarm is signaling a real threat. Whether an alarm is a real situation, a drill, or even a false alarm, safety demands that you practice your response procedures as though it were a real event!

**Shelter in Place Procedure:** You may be requested to shelter-in-place when there are dangers outside the school that prevent normal student release, such as severe weather or flooding, nuclear, biological or chemical incident or terrorist attack. Shelter-in-place is appropriate when evacuation is not. It should be announced throughout the school using a public address system or face-to-face communication.

**Administration:**

1. Activates Incident Command System as needed.
2. Announces to students and staff to stay in, or return to indoor shelter areas. Close all doors and windows, if appropriate. Turn off the ventilation system, if appropriate. Monitor and provide updates and instructions as available. Announce, “All Clear,” when the emergency has ended.

**Staff:**

1. Clear the halls of students and staff immediately and report to nearest available classroom or pre-designated shelter locations inside the facility.
2. Teachers keep your emergency go-bag or bucket and notebook or clipboard with you.
3. Assist those with special needs.
4. Close all windows and doors and lock entrances, if appropriate.
5. Seal the room from outside air infiltration, shutting off heating, ventilating or cooling system, if appropriate.
6. Take attendance and turn in Class Status Report Form to Incident Commander when safe to do so.
7. Turn on the radio/computer monitor for further information or instruction.
8. Have students refrain from using cell phones on their desks. In generalized disasters it is important to keep lines open for emergencies.
9. Stay where you are until instructed otherwise by school authorities.

Lockdown Procedure
Lockdowns are called for when there is a violent intruder or person with a weapon, if a threat of violence or other crisis occurs inside or outside the school and if moving around or evacuation would be dangerous. Immediately the office staff will activate the automatic door locking system. The doors on the outside of the campus will then lock automatically. A distinct loud siren or alarm should be used to signal immediate lockdown.

Administration: initiation the door locking system, then sound lockdown signal and announce: “Attention—There is an intruder in the building. Initiate lockdown procedure.” Do NOT activate the fire alarm! Take cover. Activate Incident Command and prepare to transfer command to police or public safety authorities. Monitor the situation. Reassess and provide updates and instructions as available. Public safety authorities will return command to you when it is safe to do so. Following the incident inform students and parents, as appropriate, providing time for review and discussion.

Staff:
1. Gather students into classrooms, maintaining calm. Try to warn other faculty, staff, students and visitors to take immediate shelter. If you are outside the building proceed immediately to a secure area, away from the threat.
2. Close and lock the doors from inside. Stay out of sight and stay away from doors and windows. Wherever you are, turn all available desks and/or tables onto their sides facing the hallway and/or outside windows, if necessary.
3. Instruct students to drop and cover behind the desks making themselves as small a target as possible. Do not close coverings on outside windows.
4. Turn off lights and turn off radios and other devices that emit sound. Silence cell phones.
5. Stay where you are until instructed in person by police or school authorities.
6. Follow instructions to continue class and/or use Disaster and Emergency Student Release procedures.

Emergency Student Release Procedure
Disaster and emergency student release procedures are intended to ensure that students and families are safely reunited, following any unsafe or unusual circumstances.

**Students**: provide and maintain an updated List of Emergency Contacts. This may include spouse, parents and two or three trusted relatives or friends nearby who will be nearby or come in case of emergency.

**Administration**: ensures that List of Emergency Contacts for each student is updated by students at the beginning of the school year, and can be updated at any time. Maintains the current copy of student emergency contacts in the administration office’s “Go-Box”, and annually in the school emergency supplies bin.

**Teachers**: make sure that both students are familiar with procedures for emergencies and disasters.

7. POSITIVE SCHOOL CLIMATE

The Governing Board and ABC Adult School desires to provide an orderly, caring and nondiscriminatory learning environment in which all students can feel comfortable and take pride in their school and their achievements.

The staff are encouraged to teach students the meaning of equality, human dignity, and mutual respect, and to employ cooperative learning strategies that foster positive interactions in the classroom among students from diverse backgrounds. The District shall provide instruction and counseling designed to promote positive racial and ethnic identity, help students understand diverse cultures, teach them to think critically about racial bias and show them how to deal with discriminatory behavior in appropriate ways.

Students shall have opportunities to voice their concerns about school policies and practices and to share responsibility for solving problems that affect their school. The school principal or designee may initiate a student council where students have a forum to discuss these concerns. Staff shall encourage and reward success and achievement, participation in community projects and positive student conduct.

The schools shall promote nonviolent conflict resolution techniques in order to encourage attitudes and behaviors that foster harmonious relations. As part of this effort, students shall be taught the skills necessary to reduce violence, including communication skills, anger management, bias reduction and mediation skills.

8. DISCRIMINATION AND HARRASSMENT POLICIES

Non-Discrimination

The District designates the individual(s) identified below as the employee(s) responsible for coordinating the District's efforts to comply with applicable state and federal civil rights laws, including Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act, and the Age Discrimination Act of 1975, and to answer inquiries regarding the District's nondiscrimination policies. The individual(s) shall also serve as the compliance officer(s) specified in AR 1312.3 - Uniform Complaint Procedures as the responsible employee to handle complaints alleging unlawful discrimination targeting a student, including discriminatory harassment, intimidation, or bullying, based on the student's actual or perceived race, color, ancestry, nationality, national origin, immigration status, ethnicity, ethnic group identification, age, religion, marital status, pregnancy, parental status, physical or mental disability, sex, sexual orientation, gender, gender identity, gender expression, genetic information, or any other legally protected status or association with a person or group with one or more of these actual or perceived characteristics. The coordinator/compliance officer(s) may be contacted at:

Principal of ABC Adult School
(562) 229-7960
Director of School Services and/or Director of Secondary Schools
Sexual Harassment (BP 5145.7(a))

The Governing Board and ABC Adult High School are committed to maintaining a safe school environment that is free from harassment and discrimination. The Board prohibits, at school or at school-sponsored or school-related activities, sexual harassment targeted at any student by anyone. The Board also prohibits retaliatory behavior or action against any person who reports, files a complaint or testifies about, or otherwise supports a complainant in alleging sexual harassment.

The District strongly encourages any student who feels that he/she is being or has been sexually harassed on school grounds or at a school-sponsored or school-related activity by another student or an adult, or who has experienced off-campus sexual harassment that has a continuing effect on campus, to immediately contact his/her teacher, the principal, or any other available school employee. Any employee who receives a report or observes an incident of sexual harassment shall notify the principal or a district compliance officer. Once notified, the principal or compliance officer shall take the steps to investigate and address the allegation, as specified in the accompanying administrative regulation.

Instruction/Information

The Superintendent or designee shall ensure that all district students receive age-appropriate information on sexual harassment. Such instruction and information shall include:

1. What acts and behavior constitute sexual harassment, including the fact that sexual harassment could occur between people of the same sex and could involve sexual violence
2. A clear message that students do not have to endure sexual harassment under any circumstance
3. Encouragement to report observed instances of sexual harassment, even where the alleged victim of the harassment has not complained

4. A clear message that student safety is the District’s primary concern, and that any separate rule violation involving an alleged victim or any other person reporting a sexual harassment incident will be addressed separately and will not affect the manner in which the sexual harassment complaint will be received, investigated, or resolved

5. A clear message that, regardless of a complainant's noncompliance with the writing, timeline, or other formal filing requirements, every sexual harassment allegation that involves a student, whether as the complainant, respondent, or victim of the harassment, shall be investigated and prompt action shall be taken to stop any harassment, prevent recurrence, and address any continuing effect on students

6. Information about the District's procedure for investigating complaints and the person(s) to whom a report of sexual harassment should be made

7. Information about the rights of students and parents/guardians to file a civil or criminal complaint, as applicable, including the right to file a civil or criminal complaint while the district investigation of a sexual harassment complaint continues

8. A clear message that, when needed, the District will take interim measures to ensure a safe school environment for a student who is the complainant or victim of sexual harassment and/or other students during an investigation and that, to the extent possible, when such interim measures are taken, they shall not disadvantage the complainant or victim of the alleged harassment

**Complaint Process and Disciplinary Actions**

Sexual harassment complaints by and against students shall be investigated and resolved in accordance with law and district procedures specified in AR 1312.3 - Uniform Complaint Procedures. Principals are responsible for notifying students and parents/guardians that complaints of sexual harassment can be filed under AR 1312.3 and where to obtain a copy of the procedures.

Upon investigation of a sexual harassment complaint, any student found to have engaged in sexual harassment or sexual violence in violation of this policy shall be subject to disciplinary action. For students in grades 4-12, disciplinary action may include suspension and/or expulsion, provided that, in imposing such discipline, the entire circumstances of the incident(s) shall be taken into account.

Upon investigation of a sexual harassment complaint, any employee found to have engaged in sexual harassment or sexual violence toward any student shall have his/her employment terminated in accordance with law and the applicable collective bargaining agreement.

**Record-Keeping** The Superintendent or designee shall maintain a record of all reported cases of sexual harassment to enable the District to monitor, address, and prevent repetitive harassing behavior in district schools. (cf. 3580 – District Records)
